

COVID-19 Vaccination Offer

1. Introduction

The Indian economy has taken a major setback over the last year as we suffered due to the pandemic during the first wave. The second wave, which was four times worse, further disrupted the already battered economic growth process. Economic gurus, analysts and policymakers are of the opinion that the country needs to accelerate vaccination to support and encourage its citizens to begin working and spending like before. In essence, this would lift the economy from the depths of recession sooner. The pace of vaccination has fallen in recent weeks, sending ripples of worry among investors.

Keeping the nation's goal in mind and the need of the hour, National Internet eXchange of India (NIXI) would like to announce a program to support the uptake of COVID-19 vaccination amongst the residents of India.

2. Offer

All one year new creates of 2nd level and 3rd level .IN/.भारत domains will be provided at:

50% discount for Registrants from India that have taken both doses of vaccination:
